Crash Landing Catastrophe

After returning from the winter break, staff of a local school were shocked to find a crash site in their school field.

Crash site mess

The site was assistant Head teacher (Mrs Button) on Tuesday the 9th of January 2018. Scientists predict that the space craft hit the earth at 3,524,679 mph.

However the police are yet to release an official statement but for now they said it is safe as there are no other dangers in the school's playing field.

Mrs Bawbridge
(Head teacher)
reported that "I was
gobsmacked when
I saw that mess."

However critics
say that the
crashlanding has
been faked by
members of the
staff.

This was an
exciting start
to the year and
Miss Burton (Y4/5
teacher) stated it
was a space-ship.

Children of
Mill Hill are
now worried that
there might be
another alien invasion.
