

In the past, we have received support for Breakfast Club from the Food Bank who have helped us by providing cereals when they have had an excessive amount. Now, there is more of a pull on their resources, with an increasing number of local families requiring their help. It is right that this food goes to those in need. In consequence, we are having to purchase more supplies for Breakfast Club which, in turn, has increased the cost. We offer a good range of cereals, fresh fruit, toast, crumpets or muffins and the Club is staffed by two people. For these reasons the cost has to increase in January. It is regrettable but, you must agree, still very good value.
